HESHAM ALSADAN

DATA SCIENTIST & AI

• Riyadh, • 966-507-050-338 • HeshamAlsadan@gmail.com • Portfolio

WORK EXPERIENCE

Results-driven Data Scientist, AI Engineer, and Computer Science Educator (with a flawless evaluation teaching 170+ students) dedicated to building next-generation EdTech platforms. Powered by 1,500+ hours of rigorous technical training at top institutions (KAUST, SDAIA, Tuwaiq, SDA), combining classroom teaching experience with deep technical execution in AI, Python, Cloud, and GPU engineering.

Computer Science Instructor **Aug 2025 - Present**

- Computer Science Instructor teaching over 170 elementary and middle school students using a hands-on, "learn-by-doing" approach, powered by custom-built AI educational platforms that turn core computing concepts into interactive, practical projects.

Tasar'u — GPU Engineering Bootcamp | تسارُع **Jun 2026 - aug 2026**

- 8 intensive weeks covering LLMs, Transformers, agentic AI, GPU architecture, CUDA, PyTorch, distributed training, fine-tuning, and production inference at scale.

SDA — Software Development using Python Bootcamp **May 2026 - Jun 2026**

- Completed a 7-week intensive journey in software development using Python, FastAPI, React, and PostgreSQL, building practical programming skills and real-world application experience.

KAUST — Advanced Artificial Intelligence **Jan 2026 - Feb 2026**

- 80+ hours of advanced training in AI techniques, models, and applications.

Tuwaiq Academy : Web Development Bootcamp Trainee **Jun 2025 - Aug 2025**

- Completed 300 hours of intensive training in Python and full-stack web development,with a focus on Django and modern web technologies.

Tuwaiq Academy : AI Bootcamp Trainee **Sep 2024 - Oct 2024**

- Completed 200 hours of intensive training at Tuwaiq Academy, gaining hands-on experience in AI, machine learning, and deep learning.
- Capstone Project/ AI Focus Analyzer for E-Learning:
- Developed an AI platform to analyze student focus during e-learning using facial recognition and quiz performance.
- Tools used: MediaPipe, OpenAI GPT-3.5, Whisper, Streamlit.

SDAIA: Data Science and AI T5 Bootcamp Trainee **Mar 2024 - Jun 2024**

- Completed 360 hours of intensive training, covering SQL, Python, data analysis, machine learning, deep learning (CNN, RNN), and MLOps.
- Capstone Project/ Hadir: Management Attendance System:
- Developed an automated student attendance system using facial recognition. The system classifies student images into folders and records attendance as students enter the classroom.
- Tools used: YOLO, Keras, Roboflow.

Tuwaiq Academy : Data Science and Machine Learning Bootcamp Trainee **Oct 2023 - Dec 2023**

- Completed 200 hours of intensive training, building 5 projects and 50 labs using Python, SQL, Pandas, Tableau, and TensorFlow. Gained expertise in machine learning (SVM, Decision Tree, Random Forest) and deep learning (CNNs).
- Capstone Project/ Haraf: Your Farming Companion:
- Built from scratch, this CNN-based image classification project identifies date types, maturity, grades, and palm tree diseases.
- Tools used: Python, TensorFlow, Plotly Dash.

EDUCATION

Bachelor's Degree in Computer Science
King Saud University

additional information

- Certifications: Alibaba Cloud Computing Engineer | IoT Certified | Drones
- Programming Languages: Python, SQL, JavaScript
- Languages: Arabic, English
- ML/DL Frameworks: Keras, Scikit-learn, TensorFlow, MediaPipe, Django
- Tools & Technologies: Streamlit, Roboflow, Kaggle, Cloud Computing, Power BI
- Core Competencies: Data Analysis, Deep Learning, Problem Solving, Teamwork, Leadership
